2. Description of Changes/News				
<p>To harmonize our D-Sub Portfolio with turned contacts, we are changing the contact plating of the IP67 D-Subs on the termination side to our common standard.</p> <p>Pre-tinning of the signal contacts in the termination area is omitted. The contact surfaces remain gold-plated throughout.</p> <p>Please find below the optical comparison of the old and new version.</p> <p>Example 9-Pin Version 09675096758:</p>				
Old Contact Finish	New Contact Finish			
				

In case of questions or concerns, please do not hesitate to contact our technical support.

3. Impact on Product Specification
<p>There will be no impact on the function. Contact plating has been used for D-Sub Standard connectors since many years successfully.</p>
4. Scheduled Date of Implementation
<p>Last shipment (date): 12/02/2022 Please consider the currently long delivery times.</p>
5. Identification of Change
<p>Article numbers will remain unchanged. Revision level will be increased.</p>

In case of questions or concerns, please do not hesitate to contact our technical support.
