APEM EOL announcement
Re: DS/DSR dip switch series

Effective 11/1/2013, APEM will no longer be offering the DS/DSR dip switches. The product is being replaced by NDS/NDSR series. The attached shows the differences in the two part series. There is some existing inventory still in Haverhill and this inventory will be available on a first come first serve basis. If you wish to return any inventory of these items from your shelves, you may with a replacement order of equal or greater value for the new NDS version. If no replacement order, you will have to wait until you are awarded a stock rotation based on your annual schedule. APEM will service all existing open orders acknowledged to date.
