reference image only

Replacements: N/A

Last Order Entry Date: March 31, 2010

Obsolescence Effective Date: June 30, 2010

For further information please contact your local sales representative.

PCN Obsolescence special note:

If no last time buy orders are received by Molex within 180 days after issue date of the Obsolescence PCN, Molex reserves the right to terminate production at any time at its own discretion. MOQ and lead time will be negotiated at time of order placement and will be dependent upon material availability. Molex will make all efforts to meet customer order requirements. Orders placed after Obsolescence Notification and subsequently cancelled will be subject to a cancellation charge.

Subject: Interface Modules Product Obsolescence GCM 10440574

Please be advised that effective July 1, 2010 Molex will no longer offer the 39170 series of interface modules. The current sales volume and profitability does not warrant keeping this product line active. New orders will be accepted through March 31, 2010 and must be scheduled to ship by the end of June 2010. No shipments will be made after this date.

Unfortunately due to our inventory situation and the lack of sales history on the affected parts, we may be unable to fulfill all last time orders. If a customer requires a larger qty of any given part number than we can supply with current inventory, the customer will have to purchase the full quantity we will have to procure from our supplier(s). This is to avoid any excess inventory after the last-time buy period.

The part numbers affected by this obsolescence can be found on the attached list. Please plan your purchasing accordingly, and thank you for your understanding in this matter.

Best Regards,
Michele York
Product Manager, Terminal Blocks
